

### **Unit 4E, Vegetation, Activity 1**

Describe your involvement with Vegetation Management

Many federal land management agencies are involved with vegetation management. In order to best tailor the classroom portion of this unit, it will be necessary to understand the extent of each students background in vegetation management planning.

When you have completed Lesson 4E, the online review system will ask the following questions:

Describe your personal involvement with vegetation management and the role you play in planning.

NEPA planning or Project planning?

Who are the other resource specialist that you work with in planning a vegetation management project?

### **Unit 4E, Vegetation, Activity 2**

Answer questions on internal and external collaboration

There has been much discussion lately with the concept of collaboration that has the potential to increase effective program management.

When you have completed Lesson 4E, the online review system will ask the following questions:

Describe one of your successes in internal and external collaboration.

What was one of your significant lessons learned that might help others in achieving collaboration?

### **Unit 4E, Vegetation, Activity 3**

There are various resources to assist with Land Management Monitoring. This exercise will introduce you to some of these resources.

Review the following web sites and related web sites on monitoring.

[http://www.fs.fed.us/institute/monitoring/cfrp/cfrp\\_mltyprty\\_ma\\_guide.pdf](http://www.fs.fed.us/institute/monitoring/cfrp/cfrp_mltyprty_ma_guide.pdf)

[http://www.fs.fed.us/institute/monitoring/overview/ntl\\_mon\\_eval\\_strtgy.pdf](http://www.fs.fed.us/institute/monitoring/overview/ntl_mon_eval_strtgy.pdf)

The review system (below) will ask you to provide a web site or sites particular to your agency that addresses monitoring.
