

Unit 4G, Fire Use, Activity 2

Read and answer questions

The activity will provide clarification of the policy through complete descriptions of the flowchart, terminology, required background documentation, and interpretations and implications.

This activity will give you an opportunity to:

1. Review the procedures and requirements to implement the full range of wildland fire use management actions within an appropriate management response framework.
2. Review fire management definitions.
3. Review required background documentation.
4. Review wildland fire management policy.

Read the [Wildland Fire Use - Implementation Procedures Reference Guide](#), February 2005 Chapter 1 and Chapter 2.

When you have completed Lesson 4G, the online review system will ask the following:

What agencies are signatory to the implementation plan?

Does a wildland fire use action constitute an emergency action?

Who can manage a wildland fire use incident?

How long do you have to make a determination of a wildland fire use incident?

What document do you use for wildland fire use incidents?
